Subject: Givaudan 2,3,7,8-TCDD Cell Disturbance
Attachments: givaudan_TCDDcellapproval_Nov2014.pdf

John,

Attached is a PDF of an approval letter (addressed to the USEPA) which states that NJDEP BCM (who oversees the Givaudan Site) finds the boring installation and abandonment methods and cell closure procedures referenced in the QAPP acceptable in regards to the investigative activities proposed for Givaudan's 2,3,7,8-TCDD cell at their former facility on Delawanna Avenue, Clifton City, Passaic County, NJ.

The letter is addressed to the USEPA RPM for these investigations. Please forward to USEPA counsel as I do not have their email address.

If you need something else please let me know.
